Drinking water facilities in Re-settlement Colonies and Slwm-Dwelleif

288. SHRI RAOOF VALIULLAH:

DR. (SHRIMATI)

SAROJINI MAHISHI:

Will the Minister of URBAN DE-VELOPMENT be pleased to state;

(a) whether Delhi Administration has accorded top priority to the supply of drinking water in re-settlement colonies and slum-dwellers; if so, by when drinking water would be made available to these areas;

(b) what is the scheme to provide safe potable water and whether the scheme would be extended to unau-thorisd regularised colonies around Delhi; and

(c) what is the financial outlay and when would the scheme be completed?

THE MINISTER OF STATE IN THE MINISTRY OF URBAN DE VELOPMENT (SHRI DALBIR SINGH): (a) Drinking water supply has been extended to all the 44 re settlement colonies on priority basis. Potable water to the slum dwellers is being supplied through water tankers as a temporary measure. Scheme to provide drinking water through pub lic hydrants | deep hand pumps on a regular basis to the JJ Clusters has already been taken up for imple mentation.

(b) Potable water supply is ex tended to all approved colonies in cluding resettlement colonies deve loped by various agencies. 541 un authorised colonies which have since been regularised are also to be co vered with potable water supply sub ject to technical feasibility and availa bility of source of water and on pay ment of development charges at Rs. 15|- per sq. mt. of the plotted area. Work for laying of water mains m the regularised (unauthorised colonies is taken up on receipt of initial 10 per cent of development charges. There is no proposal to supply potable water to unauthorised colonies which have not been regularised.

(c) There is a plan outlay of Rs. 3291 lacs under the Annual Plan 1988-89 for augmentation of water supply. Out of the above allotment a sum of Rs. 200 lacs has been provided for extending drinking water supply to unauthorised regularised colonies dur ing the current financial year. 47 co lonies have already been covered out of 113 colonies proposed to be cover ed during this year. Extension of water supply to the remaining 66 colonies depends on receipt of initial 10 per cent of development charges.

The financial outlay for supply of water in the Jhuggi Jhonpri Clusters through water tankers till the on-set

of Monsoon 1989 is Rs. 200|- lacs. Bofore onset of Monsoon 1989 drinking water to Jhuggi Dwellers will be made through public hydrantsideep hand pumps.
